DECERNIS ENTERS INTO AGREEMENT WITH CHINA NATIONAL INSTITUTE OF NUTRITION AND FOOD SAFETY

Decernis Enters Into an Agreement with the China National Institute of Nutrition and Food Safety For Use of Decernis Compliance Information Systems and Cooperation In Expansion of Decernis Content and Technology

Washington, D.C., 25 January, 2011 – Decernis LLC (<http://www.decernis.com>) and Decernis GmbH announced today that Decernis has entered into an agreement with the Division of Food Standards of the China National Institute of Nutrition and Food Safety. The Division of Food Standards will employ Decernis compliance information systems, in particular, gComply, to help the Division in its work in the evaluation of food contact and food additive issues.

As part of the agreement, the Food Standards Division has agreed to support cooperative steps with Decernis, regarding the expanded use of compliance information systems in China with the goal of assisting both exporters and importers in meeting global and Chinese national requirements. Toward this end, Decernis will organize and conduct industry seminars in China on food compliance topics and the use of automated compliance information systems. In supporting this effort, the Food Standards Division has also agreed to provide and update information on Chinese standards and other content to Decernis.

Decernis has agreed to improve its Chinese language search technology to improve the ease of use by Chinese users of Decernis products and services. A result will be the enhancement of the multi-lingual search technology developed by Decernis. Decernis has developed patented technologies designed to make searching of regulatory and scientific information more accurate and comprehensive.

“We are very proud to be support the work of the China National Institute of Nutrition and Food Safety and hope to provide compliance information systems that will improve the transparency of national requirements in an international marketplace,” said Andrew (Pat) Waldo, CEO of Decernis.

Decernis LLC with its headquarters in Washington, D.C. provides information systems and content for global food, consumer, and industrial product safety with clients in forty-six countries. The company tracks developments in more than one hundred and thirty countries. Its clients include governmental agencies such as FDA, EFSA, and OECD; food and consumer product manufacturers; raw material manufacturers; law firms; and laboratories. The company’s value-added systems integrate with leading supply chain management systems and support traceability and compliance of transactions.
